

Progress Report

Project Name	Segmentation of Dermoscopy Images on Mobile Platform
Report compiled by	
Reporting period	
Section One: Activities and Progress	
<p>I cannot say I have done significant progress since the start of the project, but the starting period was better than the period of mid November to mid December for me.</p> <p>I have made some research about the subject, not enough may be, but the time, which I can generally hard to find, is a serious constraint. After research I have written the project proposal which was a nice one that Engin Mendi approved too. On the other hand I have arranged to setup the development environment on my computer.</p> <p>Near the last week of November I have started to form the project design document and by this time problems started to occur. I can categorize these problem into two; project-based and time-based. Finding quality time to work on the project has got harder than ever, because of the density of work in my office. I really found myself in a situation that I cannot focus on anything. Project-based problems are actually related to time but also the nature of the project which is image processing and mobile platform are both foreign to me. It takes much time to get knowledge about both of them for performing tasks. On the other hand there is a possibility that I have chosen a wrong or hard to get result method for image segmentation. Because it depends on some parameters that can be decided by user, but very hard to decide automatically.</p> <p>By the mid December, I have managed to complete the design document at some point and also gathered/written code in Java for the project. But the problems made a 2 week delay since now. You can find new schedule on Section 2.</p>	

Section Two: Scheduled Summary

The project schedule and deliverables are as follow:

Number	Task	Assigned To	Start	End	Duration	2011			2012
						October	November	December	January
1	Requirement Analysis	Caner Yogurtcular	19/10/2011	16/11/2011	21				
2	Milestone-Completing Project Proposal		19/10/2011	16/11/2011	21				
3	Design	Caner Yogurtcular	17/11/2011	14/12/2011	20				
4	Milestone-Completing Project Design Document		17/11/2011	14/12/2011	20				
5	Implementation	Caner Yogurtcular	15/12/2011	28/12/2011	10				
6	Testing & Maintenance	Caner Yogurtcular	29/12/2011	4/1/2012	5				
7	Milestone- Preparing Source Code & APK		15/12/2011	4/1/2012	15
